SUPPLY CHAIN MANAGEMENT SUPPLY
Defense Supply Center, Columbus

From the DSCC Commander

Welcome to the 2003 Defense Supply Center Columbus Supplier Conference. I am delighted you have taken the time from your schedules to be with us during the next couple of days. The National Defense Industry Association (NDIA) is helping DSCC to host this year's events. My staff and the NDIA personnel have worked very hard to make this a meaningful event for you, our industry partners.

This year's conference theme is "*Transforming the DSCC - Supplier Relationship.*" Our theme reflects the strategic transition underway at DSCC to be even more responsive in meeting our military customers' requirements through enhanced relationships with you - our valued suppliers.

We are transforming our operations through the **DLA Business Systems Modernization Program** replacing our legacy information technology system with a COTS Enterprise Resource Planning system. We will significantly enhance relationships with our customers and suppliers through implementation of BSM.

As DLA's Lead Center for Land Combat Systems, Maritime, and Missile Support, we are committed to providing the best possible support to our nation's armed forces. You play a vital role in helping DSCC to accomplish this challenging and fast paced mission.

I am confident the forums and presentations offered to you during our conference will help you better understand the transformation taking place throughout DLA and at DSCC. I hope you find this year's conference to be very beneficial and your feedback on how we can serve you better in the future is encouraged.

Please accept my personal thanks for your support on behalf of the men and women of the armed forces now pursuing the global war on terrorism. Your support allows DLA to provide everything that is needed by our armed forces around-the-clock, around the world.

Linda Bird

Defense Supply Center Columbus

ABOUT DSCC

Throughout the world, the Defense Supply Center Columbus, is known to more than 24,000 military and civilian customers and 10,000 contractors, as one of the largest suppliers of weapons system spare parts.

DSCC is the field activity of the Defense Logistics Agency, which is in Ft. Belvoir, VA. DSCC manages more than 1.6 million different items and accounts for more than \$2.3 billion in annual sales.

DSCC was the first Inventory Control Point (ICP) in DLA to develop a weapons system approach toward materiel management. Weapons system management is now standard procedure in DLA, and DSCC is the lead, for Land Combat Systems, Maritime and Missile Support.

The current DSCC Commander is Rear Admiral Linda J. Bird, SC, USN. The DSCC Deputy Commander is Mr. James M. McClougherty. The Chief of Staff is Colonel Charles L. Renfro, USAF.

DSCC's vision and mission are the foundation statements for its commitment to the Nation's Armed Forces. DSCC aligned its FY 03 Business Plan initiatives with the DLA Strategic Plan goals to ensure our constancy of purpose in meeting the readiness needs of America's Warfighters.

DSCC's corporate identifier, The DSCC Way, illustrates the principle components of DSCC culture and business/interpersonal ethics. The identifier defines the Center's expectations about customer support and the values we promote among our associates.

This Center, now called the Defense Supply Center Columbus, has served in every major military engagement since World War I. In 1917, the site was a combination of swamp land and farmland. America's production effort in World War I reached a climax in 1918, when transportation lines to ports of embarkation for men and materials were filled to capacity. This site was advantageous because it afforded immediate access to three important railroad lines. The U.S. Army Quartermaster Corps made the first purchase of land, 281 acres, to construct a government military installation in April 1918. Warehouse construction began in May of that year, and by August, six warehouses were receiving material for storage. Those warehouses are still in use today.

The lull between WWI and WWII reduced Center operations to mostly reconditioning and sales of the stockpiles which had been needed earlier to ensure the nations' defense.

During WWII the Center became the largest military supply installation in the world. In December 1942, an additional 295 acres were purchased. With more than 10,000 civilian employees, it played a large part in the overall war effort. Some of the warehouses were turned into secured barracks to house prisoners of war.

Amidst the wars, the conflicts and humanitarian relief efforts, our installation has continuously worked to establish direct and fast moving supply lines to support our troops in all parts of the world.

The installation's operational activities were assigned to the U.S. Army Supply and Maintenance Command in July 1962. The following year, it became the Defense Construction Supply Center under what is presently known as the Defense Logistics Agency.

DSCC was formed from the 1993 Base Realignment and Closure Commission ordered merger of the former Defense Construction Supply Center in Columbus, Ohio, and the former Defense Electronics Supply Center in Dayton, Ohio. Decisions made during BRAC 95 further refined the transition total weapons system management. In January 1996, DSCC received its fourteenth and current name, the Defense Supply Center Columbus.

Conference General Information

On-site Registration Area

The Registration area is located in the Columbus Convention Center foyer opposite Exhibit Hall E. Conference badges will be distributed from the registration counter. You must have a Government issued picture identification in order to pick up your conference badge.

BADGES MUST BE WORN AT ALL TIMES IN THE CONFERENCE AND EXHIBIT AREAS

Receptions and Networking Opportunities

Opening Reception

The first opportunity to view the DSCC Conference Exhibits will take place at 5:00 p.m. on Monday, August 25, 2003 in Exhibit Hall E. Hors d'oeuvres will be served during the reception.

Tuesday's Reception will also be in the DSCC Conference Exhibit Hall E from 5:00 p.m. until 7:00 p.m., August 26, 2003. Hors d'oeuvres will be served during the reception.

Exhibit Hours:

Monday, August 25 - 5:00 p.m. - 7:00 p.m.

Tuesday, August 26 - Noon - 7:00 p.m.

Wednesday, August 27- 9:45 a.m. - 2:00 p.m.

Monday and Tuesday's Reception, and both lunches will be held in Exhibit Hall E.

Conference General Session Area

The General Sessions will be located in Ballroom 4 on the 2nd Floor of the Convention Center, directly above the conference registration area.

Breakout Session Area

The Breakouts will be located in rooms directly opposite Exhibit Hall E and in Ballroom 4. Breakout sessions will be posted with signage at each room.

Conference Attire

Civilian - Business (Coat and Tie)

Military - Class A Uniform

Parking

Parking is available at the Convention Center Parking Lot.

- 3:00 p.m. Center Closing Remarks - **Rear Admiral Linda J. Bird, SC, USN**, Commander, Defense Supply Columbus

BREAKOUT SESSION SUMMARIES

Strategic Material Sourcing: Strategic Supplier Alliances, Long Term Contracts, Performance Based Logistics: The DSCC Procurement Group Staff will present a briefing on the four key initiatives which support the DSCC Supplier Relationship Management Program.

SRWeb/DIBBS Demonstration: This Session will demonstrate the key aspects of the new DLA Business System Modernation bid board.

DDC, Distribution Planning Management System; In-transit Visibility Demonstration/Government Transportation: The Defense Depot Center will present a live demonstration of the new DLA transportation Enterprise System Database which provides in-transit visibility of shipments to customers, vendors and DLA.

DFAS Road Show on Contract Payments/DCMA Wide Area Workflow: The staff of the Defense Finance and Accounting Service of Columbus Ohio and the HQ Defense Contract Management Agency will present a briefing on current strategic initiatives designed to streamline the processing and completion of contract payments.

DSCC Requirements Forecasting Website: DSCC staff members will demonstrate the capabilities of a new website which will allow contractors to preview DSCC's anticipated contract line item requirements.

DSCC Small Business Program Overview/Sourcing Initiatives: The DSCC Small Business Center will present a briefing on the DSCC outreach initiatives designed to increase the sourcing of contracts to small businesses.

DSCP Inventory Locator Network (DILNET) Program Demonstration: The Defense Supply Center Philadelphia staff will present a briefing on a system application designed to provide visibility of vendors' total on-the-shelf inventory which allows buyers to search by National Stock Number in order to determine the inventory availability status.

Generalized Emulation of Microcircuits (G.E.M.) /Advanced Microcircuit Emulation (A.M.E.) Program Overview: The DSCC Staff will present an overview briefing on the G.E.M and A.M.E. Programs, the type of support the program provides to the Military Services and the contracting opportunities available for industry to utilize the current microcircuit production capabilities.
