NSS Management

Space Quality Improvement Council Brief 24 Jun 04 UNCLASSIFIED//FOR OFFICIAL USE ONLY

Benefit to Stakeholders

- Stronger voice in directing NSS activities
- Ability to task and leverage NSS organizational capabilities
- More integrated focus on joint needs
- Increased horizontal integration
- Cross-community dialog on integrated capabilities; support of transformational activities and initiatives
- Closely linked to Joint Capabilities Integration & Development System (JCIDS)
- More involvement in space and non-space trades
- Leveraging planning, programming, and acquisition activities
- Real time feedback on plans and programs instead of end-ofyear assessments only
