

JPEO-CBD

JPM Decontamination Advanced Planning Brief to Industry

7 April 2004

**Colonel Albert F. Burnett, USAF
JPM-Decon
Joint Program Executive Office
for Chemical and Biological Defense
Albert.Burnett@brooks.af.mil
Presented by Mr Bill Iddings**

- **Program Overview**
- **Warfighter Needs**
- **Acquisition Strategy**
- **Technical Challenges**
- **Upcoming Business Opportunities**
- **Contacts**

- **Remove or Neutralize Chemical, Biological and Radiological Contamination From Personnel, Equipment, Facilities and Terrain.**
- **Decon Acquisition Programs**
 - **Joint Service Family of Decontamination Systems (JSFDS)**
 - **Joint Service Sensitive Decontamination System (JSSDS)**
 - **Joint Platform Interior Decontamination (JPID)**

- **Personnel/Skin**
 - **Joint Service Personnel/Skin Decontamination System (JSPDS)**
- **Equipment, facilities and terrain**
 - **Joint Service Man-Portable Decontamination System (JSM-PDS)**
 - **Joint Service Transportable Decontamination System (JSTDS)**
 - **Joint Service Stationary Decontamination System (JSSDS)**

- **Decontamination of Sensitive, High Dollar Value, Mission-Critical Equipment**
 - Sensitive – Cannot Be Decontaminated With Traditional Decontamination Solutions and Processes
 - Over \$500

- **Increment I – Small Scale/ Closed Loop**
 - Night Vision Goggles
 - Computers

- **Increment II – Large Scale**
 - TBD

- **Decontaminants and Applicators That Will Decontaminate:**
 - Aircraft, Vehicle, Mobile Maintenance Facilities, and Ship Interiors Without Degrading Those Systems.
- **Increment I – Static**
 - Decontaminate During Refueling / Re-supply / Re-arming
- **Increment II – Dynamic**
 - On the Move

- **Effective**
 - Chemical Agents
 - Biological Agents
 - Toxic Industrial Materials (TIMs)
 - To a “Safe” Level

- **Reduced Logistics**
 - Less/No Water
 - Reduce Waste Byproducts
 - Smaller/Lighter/Less Consumables
 - Multi-use/Dual Use

- **Compatible with**
 - Detectors
 - Petroleum/Oil/Lubricants
 - Materiel
 - Other Decontaminants/Applicators

Warfighter Needs (cont)

- **Reliable/Available/Maintainable (RAM)**
- **Easy to use**
 - **Set up**
 - **Prepare**
 - **Operate**
 - **Minimal Training**

Acquisition Strategy

- **Looking for Industry off the Shelf Solutions**
- **An 80% Solution Is Better Than None**
- **Evolutionary Acquisition Strategy**
- **Spiral or Incremental Development Depending on Program**
- **Funding Is Being Worked to Fully Fund the Program**

- **JSPDS**
 - **Effective Against Chemical and Biological Agents and TIMs**
 - **Use in Operating Temperature Extremes (-25°F to 130°F)**
 - **3-5 Year Shelf Life at Storage Temperatures of -28°F to 160°F**
 - **Packaging Durable for Individual Carry Yet Easy to Open**
 - **FDA Approval**
 - **Wound Decontamination**
 - **Mortuary Affairs**

- **JSM-PDS/JSTDS/JSSDS**
 - **Effectiveness**
 - **Against Broad Spectrum of Agents (Chemical, Biological, TIM)**
 - **On Vast Variety of Materials (Polymers, Composites, Metals, Etc)**
 - **In Operating Temperature Extremes -25°F to 120°F**
 - **Decontaminant Compatibility With**
 - **Vast Variety of Materiel Assets That Must Be Decontaminated**
 - **Protection Equipment (No Protective Capability Degradation)**
 - **Detection Devices (No False Positives, Negatives, Damage)**
 - **Other Decontaminants, (e.g. HTH, STB, DF-200)**
 - **Petroleums, Oils, and Lubricants**
 - **Other Materiel That May Be Exposed to Decontaminants**
 - **Applicator Compatibility With Multiple Decontaminants**
 - **Decontaminant Shelf Life (5-10yr) When Stored at -28 to 160°F**
 - **Containment/disposal (Recycling) of Runoff**

Technical Challenges

JSSSED

- **Effectiveness**
 - Against Broad Spectrum of Agents (Chemical, Biological, TIM)
 - To a Very Low Level – Safe for Human Contact
 - Solvent Regeneration
 - Reuse to Reduce Cost and Logistics
- **Material Compatibility**
 - Silicone
 - Plastics
 - Polymers
 - Others
- **Size and Weight**
 - Fit on a 463L Pallet
 - 500 lbs

Effectiveness

- Against Broad Spectrum of Agents (Chemical, Biological, TIM)
- On Vast Variety of Materials (Polymers, Composites, Metals, Etc)
- In Operating Temperature Extremes -25°F to 120°F

- **Material Compatibility**
 - Aircraft and Vehicle Interiors Have Large Range of Material and Different Variety of Equipment
 - Aircraft Flight Certification Process

- **Size and Weight**
 - Transportability - 463L Pallet
 - Inside of Small Entry Hatches

- **Reliability of Decontamination Process**
 - Must Work Every Time Since Efficacy Is a Challenge to Verify

- **Aqueous Decontaminants**
 - Request for Proposal 3QFY04
 - R&D With Production Options (up to TBD)

- **JSPDS Increment II**
 - Technology Readiness Assessment 1QFY06

- **JSM-PDS**
 - Increment I RFP 1QFY05
 - R&D With Production Options (up to TBD)
 - Increment II RFP TBD

- **JSTDS Small-Scale**
 - Aqueous or Non Aqueous System RFP 4QFY05
 - R&D With Production Options (TBD systems)

- **JSTDS Large-Scale**
 - Increment I RFP 1QFY05
 - R&D With Production Options (up to 1000 systems)
 - Increment II RFP 1QFY07
 - R&D With Production Options (up to TBD systems)

- **JSSDS**
 - Increment I RFP FY06
 - R&D With Production Options (up to TBD systems)

- **Other**
 - Performance Based Logistic – TBD
 - Partnering Opportunities (e.g. Logistics Support to Commercial Manufacturer's)

Upcoming Business Opportunities JSSED/JPID

- **JSSED**
 - Increment I RFP 1QFY05
 - System Integration/prototypes/testing
 - Low Rate Initial Production Option (30 Systems) and
 - Full Rate Production Options (up to 770 Systems)
 - Increment II RFP TBD

- **JPID**
 - Market Analyses 4QFY04
 - Industry Day 1QFY05
 - Technical Readiness Evaluation 1QFY05
 - Increment I RFP 4QFY05
 - R&D With Production Options (up to TBD systems)
 - Increment II RFP TBD

Points of Contact

- **Joint Service Family of Decontamination Systems**
 - Victor Murphy, Joint System Manager
 - 703-432-3193
 - Murphyva@mcsc.usmc.mil
- **Joint Service Sensitive Equipment Decontamination**
 - Gyleen Fitzgerald, Joint Systems Manager
 - 410-436-5592
 - Gyleen.Fitzgerald@us.army.mil
- **Joint Platform Interior Decontamination**
 - William Schlegel, Joint Systems Manager
 - 210-536-4401
 - William.Schlegel@brooks.af.mil
