# ***THE FACTS***

# Interoperability

- **Effective coalitions need to be interoperable**
- **Interoperability is a concept, not a measurement**
- **Interoperability is not an end in itself**
- **The best interoperability (results) occur when they use our systems**

A grayscale, topographic-style world map serves as the background for the slide. The continents are rendered in shades of gray, showing their physical features like mountains and valleys. The text "OUR TASK" is superimposed in the center of the map.

# ***OUR TASK***

# Leadership's Vision

It is our collaborative efforts, with our OSD counterparts, the interagency, and our Coalition partners that will ultimately determine our success in this war....

...our Coalition partners have significant insights to share with us as well. Our friends at home and abroad are our natural allies in this war, and **we should seek to partner with them at every opportunity.**

# The Vision

**“As we combine our advantages, I envision a 1,000-ship Navy – a fleet-in-being, if you will, made up of the best capabilities of all freedom-loving navies of the world.**

**This 1,000-ship Navy would integrate the capabilities of the maritime services to create a fully interoperable force – an international city at sea. ”**

Remarks as delivered for the 17th International Seapower Symposium Naval War College, Newport, RI September 21, 2005

# Linking Requirements to Programs

What coalition/combined capabilities do combatant commanders require?

What DoN collaborative or international sales programs exist (and permitted)?

International  
Programs  
=  
Interoperability

## Campaigns with Barriers

Fusion

1. Analyze Principal USG Security Cooperation Guidance
2. Input scores (1, 3, or 5), based on analysis, into Priority Matrix
3. Validate Priority matrix with COCOM staff
4. Continual review, update, & refinement

- = No Barrier(s)
- = Minor Barrier(s)
- = Significant Barrier(s)
- = Major Barrier(s)

# ***THEIR DECISIONS***

# Decision Drivers

- **Reliability**
- **Support and training**
- **Advanced technology**
- **Demonstrated use by U.S. Armed Forces**
- **Political relationship with U.S.**

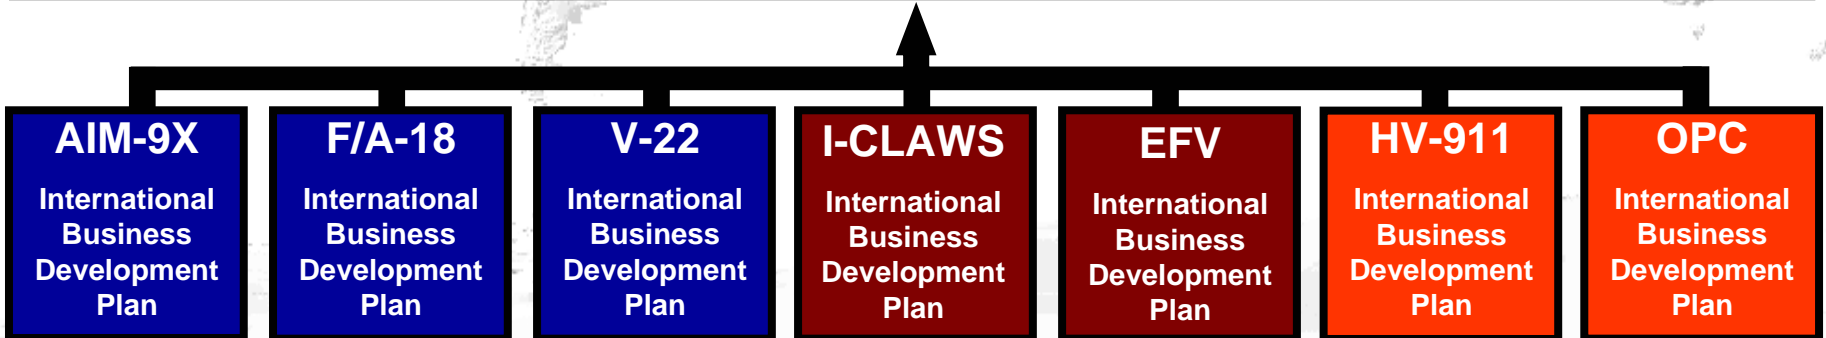

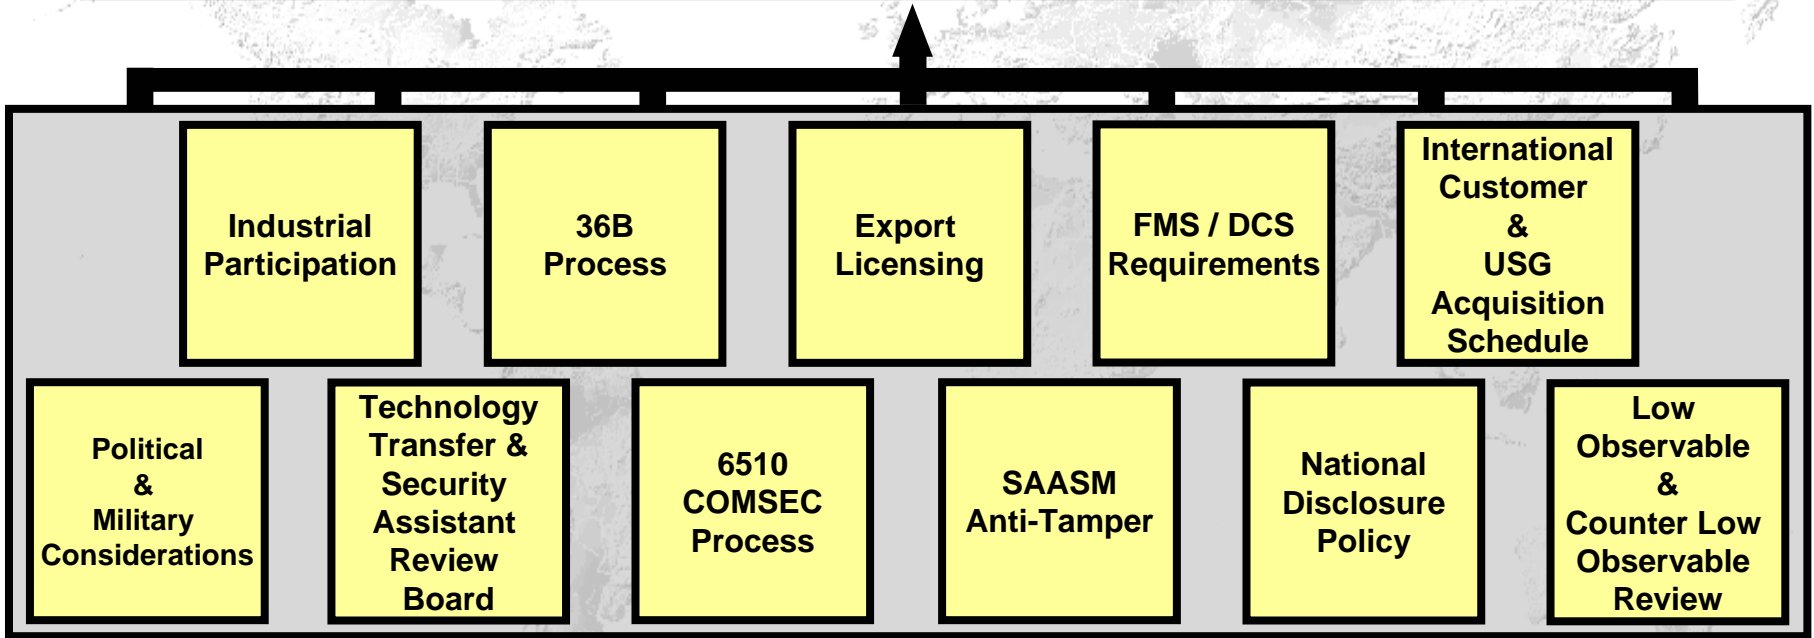

# Dissatisfiers

- **Lengthy & complicated technology transfer system**
- **High level of Congressional and public scrutiny**
- **Price and related costs**
- **High level of technological abilities/training may be required**
- **Limited quid pro quo**

# Barrier Matrix

# The Barriers (1)

<b>Pol-Mil</b>	<b><u>Facilitators:</u> e.g., Treaties/Alliances; Cross Servicing Arrangements</b> <b><u>Inhibitors:</u> e.g., Congressional Restrictions; Article 98</b>
<b>LO/CLO</b>	<b>Low Observable/Counter Low Observable Issues</b>
<b>NDP</b>	<b>National Disclosure Policy (NDP) exception required</b>
<b>USN: TTSARB</b> <b>USAF: Topline</b>	<b>Has the TTSARB cleared country to receive system</b> <b>Has the configuration/capability been approved</b>
<b>6510</b> <b>(COMSEC)</b>	<b>Has the COCOM initiated the CJCSI 6510 process</b>
<b>SAASM</b> <b>Anti-Tamper</b>	<b>Has SAASM been incorporated</b> <b>Are there any anti-tamper issues</b>

# The Barriers (2)

<b>Export Licenses</b>	Are export licenses approved
<b>FMS / DCS</b>	Are there any requirements for a country to purchase FMS or DCS
<b>Schedule</b>	Campaign schedule, product availability, timing, production line questions
<b>Industrial Participation</b>	Level of Industrial participation (e.g. software release, co- production, offsets)
<b>36b Approval</b>	Has the sale of been staffed with Congress
<b>Case by Case Issues</b>	Yockey Waiver, FMF, Excess Defense Articles (EDA)

A faint, light-colored world map is visible in the background, centered behind the text.

***PROPOSED  
IMPROVEMENTS  
(OUR DREAM)***

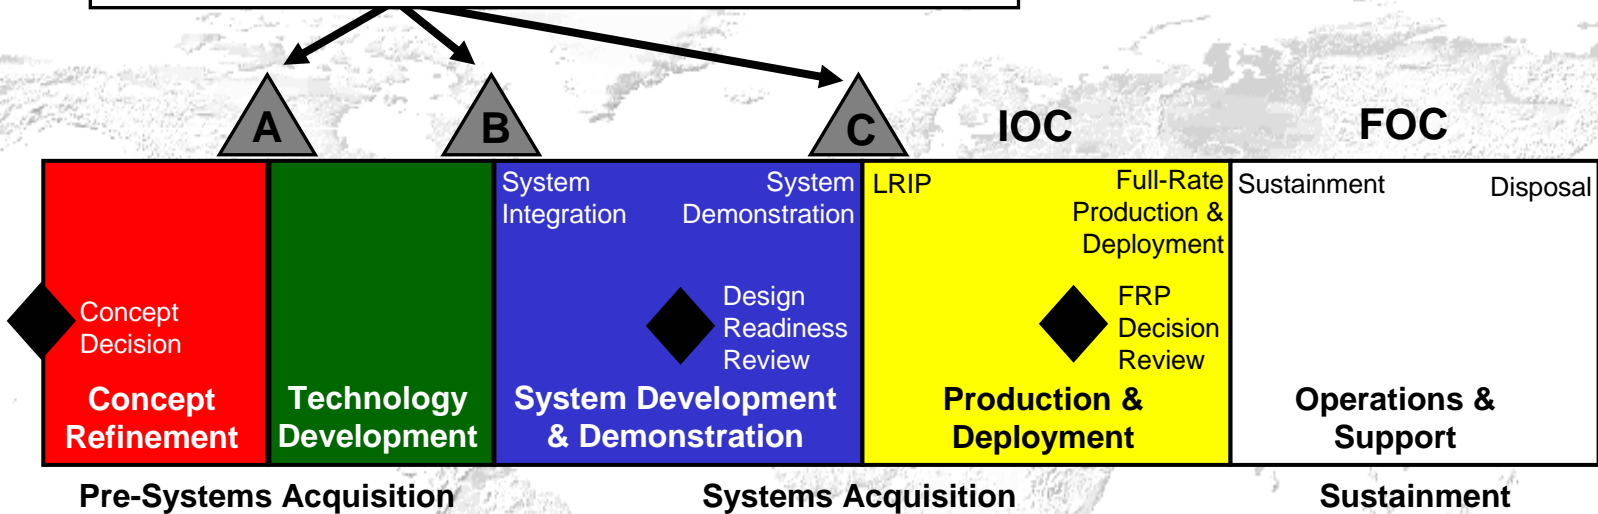

# Proposals

- **Link IPO international initiatives to SECDEF SCG**
- **Combine the four principle OSD technology transfer committees into one process**
- **Convert proceedings/votes into electronic means with decision time limits**
- **Resources allocated to Service programs with the greatest strategic value & probability of success**
- **Development of IP & interoperability metrics**
- **Continue to push for export control reform through various fora: ADAC, NSDP-19, etc.**
