CoC/SERE Training

- Navy Level B (SERE 100) CoC Training
  - Jan 05 -- Initial CFFC implementation
  - Jun 05 -- www.nko.navy.mil (CD back-up)
  - Jan 07 -- Over 70,000 completions
  - Document via Navy Training Management System
  - OPR -- Center for Security Forces (CENSECFOR)
- SERE 100 meets "fundamental" DODI and Joint Staff SERE training guidance

CoC/SERE Training (cont'd)

- Navy Level C

  - Potential throughput challenges driven by evolving HRI/C/E determination

  - Realigned under NETC/Naval Personnel Development Command (NPDC)/ CENSECFOR

    - CENSECFOR is Navy lead for SERE training development and delivery

CoC/SERE Training (cont'd)

- Core Captivity Curriculum (CCC)
  - OPNAV/HQMC interim CCC policy message (02/06)
  - Expanded HRI/C requirements to include Intel personnel and NCC/COCOM designated EOD and Navy Coastal Warfare
  - SERE East/West aggressively implementing CCC within time and resource constraints
    - Added academics and ARL's
    - Full implementation pending new EAI

Commander/Staff Training

- Support COCOM IA requirements
  - Fill JPRC permanent/IA billets with PR 2XX/3XX trained personnel
  - Training coded and tracked
- Joint Force Maritime Component Commander
  - Personnel Recovery Coordination Cell (PRCC)
    - ESG/CSG/Naval Units – PR Coordination Team (PRCT)
  - FFC working to define RCC billets/training
    - Leverage "train the trainer" and PRETC MTT

Navy Recovery Forces

- Trained and equipped
  - Low, Medium and High Threat
- Primary methods
  - CSAR (CSG)
  - TRAP (ESG)
  - NAR (NSW)
- NSAWC oversight of doctrine and TTP's

Current and Future Capabilities

- Current
  - Navy CSEL program
    - On track within joint program; FOC FY10
    - Primarily NAVSOF and aviation
    - Terminal area communications (Quickdraw-like) in development
    - Terminal area guidance not planned for Navy
- Future
  - Full implementation of PRMS
    - Currently limited by OPSEC
  - Expand SERE 100 to include contractors/DOD civilians
  - NAR enhancement
    - Navy fully funded (PDM III)

Summary

- Navy transformation continuing

- New policy forthcoming

- Significant progress made in fundamental (SERE 100) training

- CCC implementation progressing
  - Resource shortfalls compete with other priorities

Questions?

Back-up

Reintegration

- OPNAVINST for Reintegration (draft)

- Phase III concerns
  - Early involvement of Service HQ
    - before any theater comms with SERE schools
    - DeFacto: contact Pers-62 CACO and SERE West
  - Plan negotiated between Phase II, Service HQ, CACO, and parent command
    - pre-requisite to tasking of facilities/personnel at the Service level
  - Public Affairs plan is essential

CoC/SERE Training (cont'd)

- Requirements Process
  - Align COCOM requirements
    - COCOM requirements vary
    - Need an organization to consolidate and prioritize COCOM inputs
    - Only one Level C opportunity per Service Member
      - Additional capabilities must be incorporated into pre-deployment training or other venues; probably academic only
