GIDEP

GOVERNMENT INDUSTRY DATA EXCHANGE PROGRAM

Presented by:
Scott Monroe
NSWC-Corona

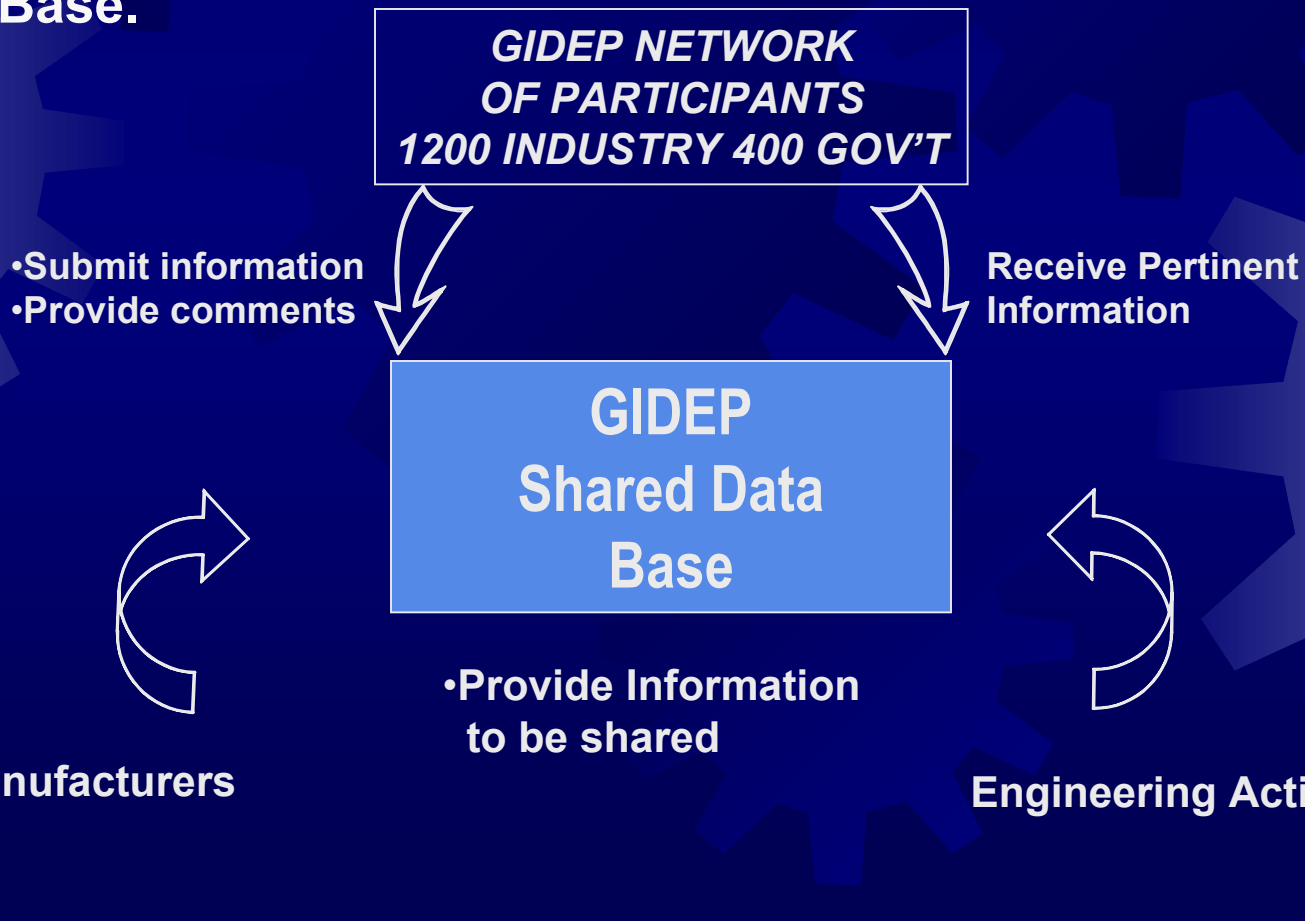
Monroers@corona.navy.mil

What is GIDEP?

A <u>Partnership</u> Between Government & Industry Teamed to <u>Share</u> Technically Valid, Fact-Based Information.

Scientific and Technical Information is Shared Through

an *Active Network of People* and an On-line WEB Enabled Data Base.



Value GIDEP Brings to its Members

- *Continuously improves the quality and relevance of technology development and its timely application.*
- *Aggressively shares our dual use technology and technical capabilities with the U.S. government, public and private sectors.*
- *Improves the safety, quality of our products and services through continuous improvement and reengineering of our processes.*
- *Supports avoidance of costly mistakes by sharing the benefit of others' learning*

How can it be FREE ?

GIDEP is Funded by:

Army

Navy

Air Force

DOE

DLA

DCMA

NASA

DOT

Dept. National Defence Canada

Organizational Structure

GIDEP

JOINT LOGISTICS COMMANDERS

Executive Agent
Deputy Chief of Naval Operations (Logistics)

PROGRAM MANAGER
OASN WASH., D.C.

GOVERNMENT ADVISORY GROUP

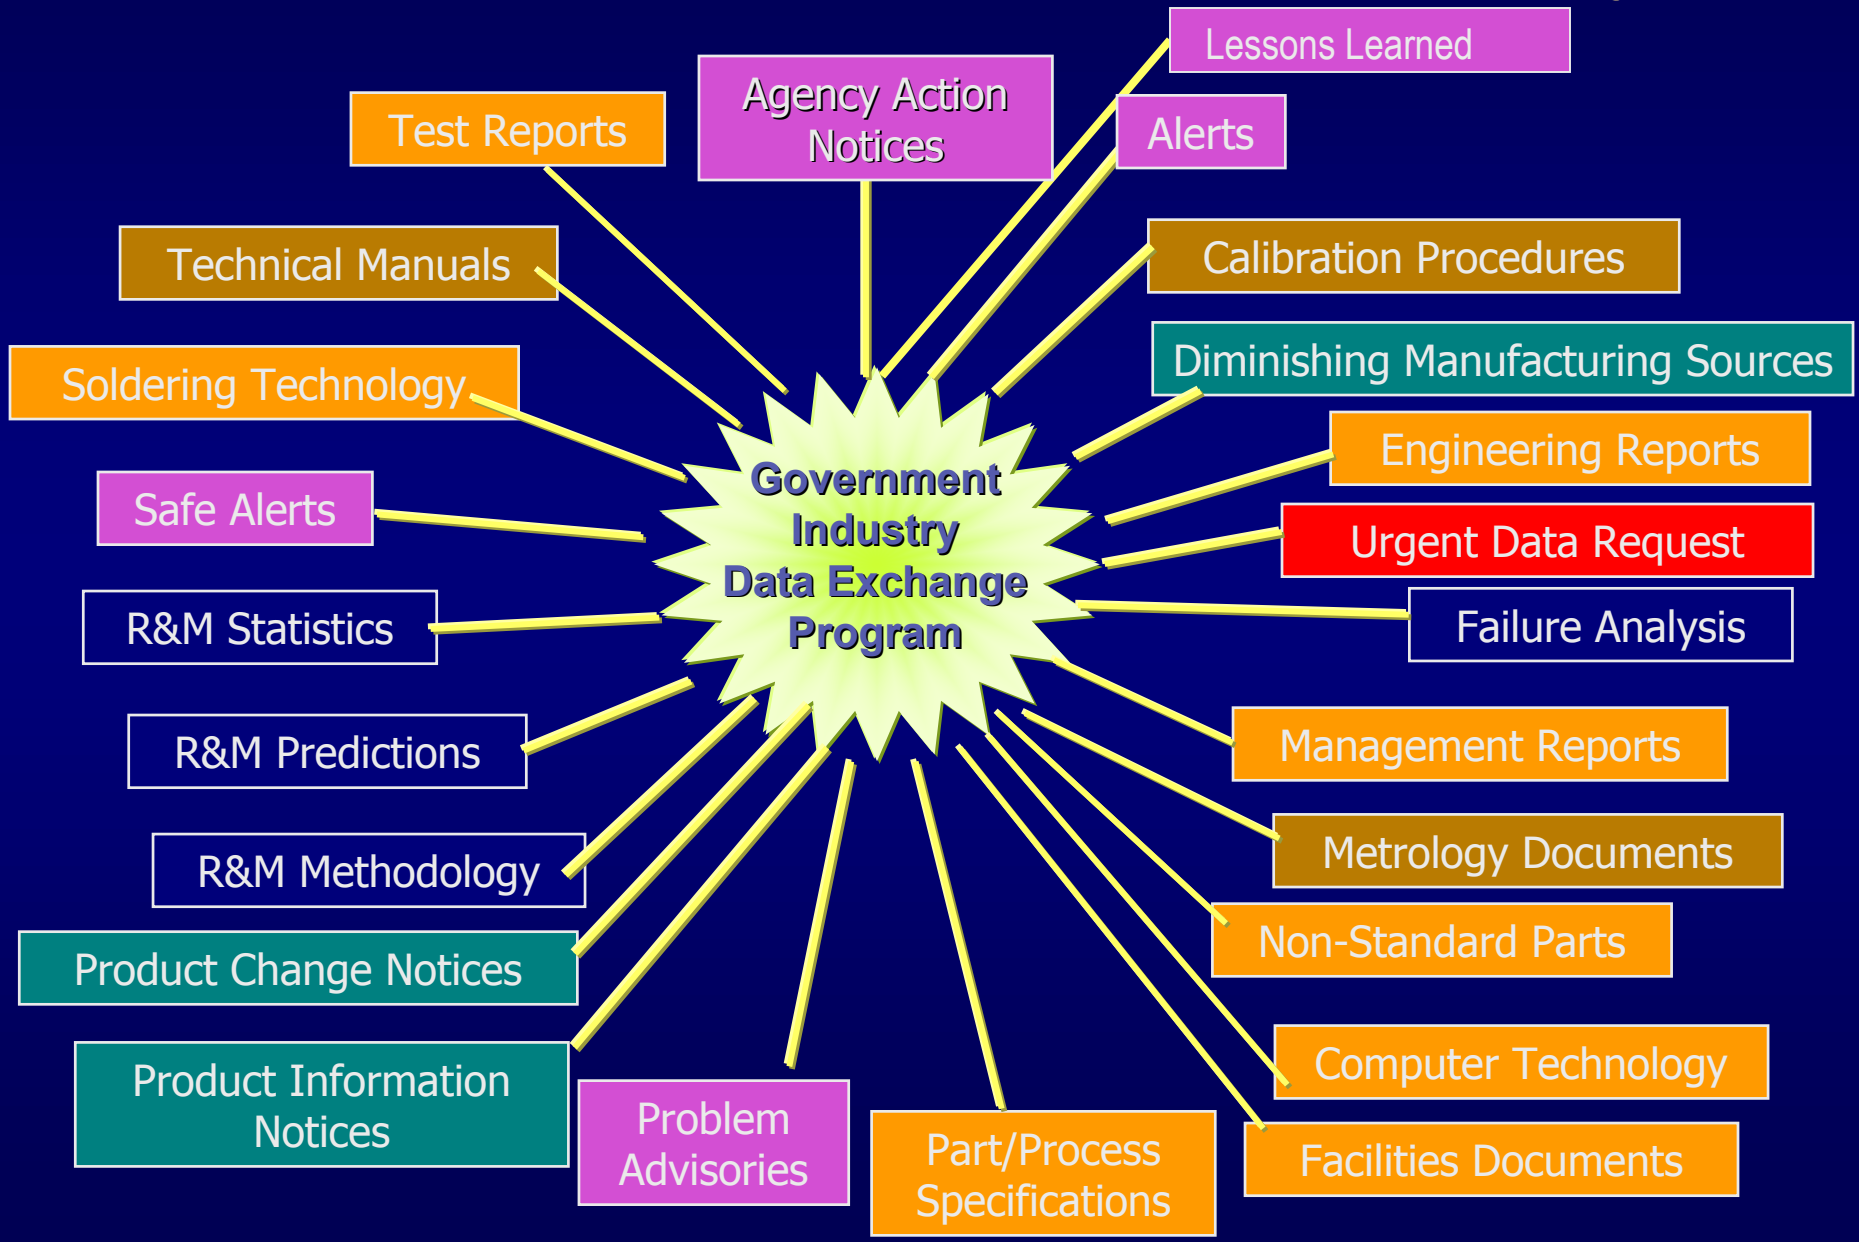
INDUSTRY ADVISORY GROUP

OPERATIONS CENTER
CORONA, CA

GOVERNMENT PARTICIPANTS
400 Representatives

INDUSTRY PARTICIPANTS
1200 Representatives

GIDEP DATABASE - What's in it for you?



Failure Experience Data

- Main Goal: Avoid having non-conforming materials become part of your product/system
  - *reduce the risk of loss of life or property*

- FED document types include:
  - ALERT's
  - SAFE ALERT's
  - Problem Advisories
  - Agency Action Notices
  - Lessons Learned

Problem Advisory, ALERT & SAFE ALERT

- Reports a Problem *(functional failure)*
  - Materials, parts, components, or sub-assemblies
  - Specification
  - Software
  - Facility
  - Manufacturing Process
  - Test Equipment
  - Has an unknown probability; or
  - Has a low probability of causing problems for other users
  - Loss of life or,
  - Property damage

Agency Action Notice

- An Agency Action Notice redistributes problem information issued by a government agency other than GIDEP
- An AAN "problem" can include just about anything

  -- from nuclear reactors to surge protectors

DMSMS

- Occurs when a manufacturer decides to discontinue a product or product line

- DMSMS data elements:
  - Case number
  - Manufacturer information
  - Part identification
  - Important dates
  - Solution Code
  - Comments

DMSMS Data Sources

GIDEP is the DoD's center for the acquisition, management and dissemination of DMSMS information.

- Manufacturers
- Distributors
- Government Agencies
- GIDEP Participants

GIDEP Participants

Urgent Data Request (UDR)

- Service to allow GIDEP participants to query information from the GIDEP community
- Used most often to locate surplus items or parts that have been discontinued

BENEFITS of GIDEP Membership

***Free* Resource for:**

- *Information on nonconforming materials*
- *Extending your staff through Urgent Data Requests of other participants*
- *Technical information and procedures*
- *Real-time notices on DMSMS issues*
